Halle a/S., im Januar 1879.

Die "Naturforschende Gesellschaft zu Halle" begeht am 3. Juli dieses Jahres ihr hundertjähriges Stiftungsfest. Zur Feier dieses Tages beabsichtigt sie eine Festschrift herauszugeben, welche Abhandlungen aus dem Gebiete der Gesammten Naturwissenschaften enthalten soll. Indem der Unterzeichnete sich beehrt, Ew. Hochwohlgeboren als Mitglied der Gesellschaft hiervon in Kenntniss zu setzen, und im Namen der einheimischen Mitglieder zur Theilnahme an der Säcularfeier ergebenst einzuladen, erlaubt er sich zugleich zu bemerken, dass literarische Beiträge für die Festschrift gern in Empfang genommen werden. Um jedoch den Umfang der letzteren rechtzeitig bestimmen zu können, ist als äusserster Termin für die Einsendung von Manuscripten der 20. April, von Tafeln dagegen der 1. März festgesetzt worden.

Der Schriftführer:

Dr. F. Marchand.

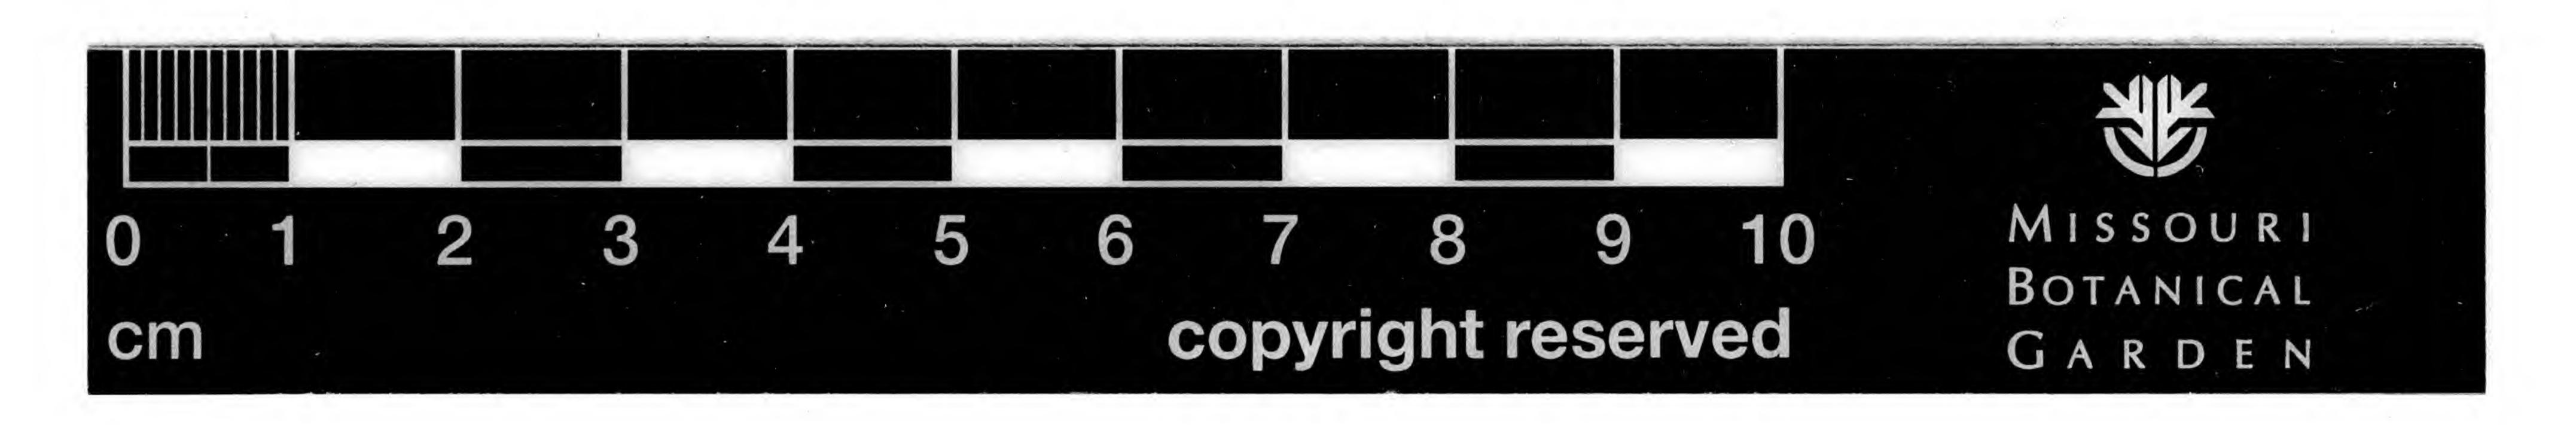

Jägerplatz 2.

MISSOURI BOTANICAL GARDEN Wenty Brever - lettert & Diny Mindiby P., pronderson a magnificent tree, oflu over 200 feel high - have seen it 12 feel drameter _ heard of it langer. It belongs to the lover formed portion of the Sierras that is up to about 4000 feel in the latitude of San Fracerise _ by lower in the northern part of the State. Cover pendant, rales their, back splitting in enormous plate, sometime, 2 feel wide. It extends as for south as lat 34 a how much faither, don't know.

Peter a similar tree, only more branching, reason such larger, back splits into smaller plates. Both species seem to merge into each other, yet Ithing them, distinct. I pefreyer is very abandant and very large on the easter, slope of the Scerni's and the chains each, in the disert, and will sometime, you on soil so by that it would deem impossible for it to get any morture for 2000 years together.
